

Value Committed. Relationship Driven.
Retail Environment Solutions.

BISHOP FIXTURE + MILLWORK

Custom

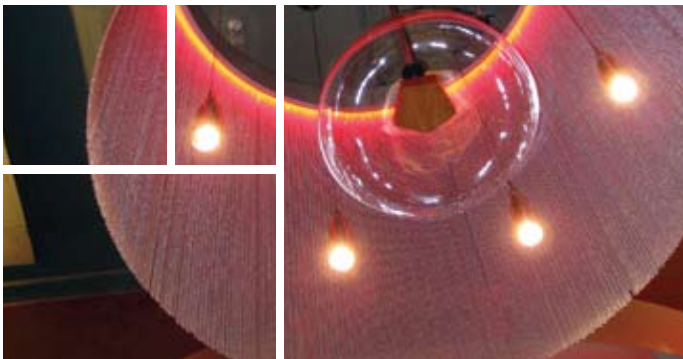

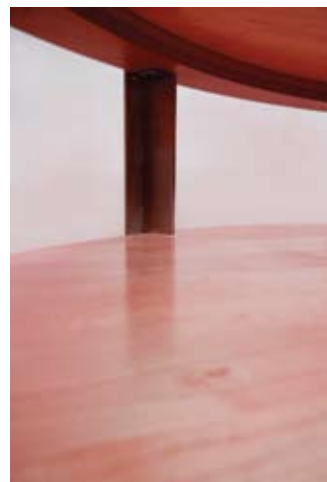

Bishop Fixture and Millwork is world-wide supplier of custom retail fixtures, kiosks and store environments. We bring together award winning display manufacturing, project management, and global services to provide businesses with turn-key retail environment solutions.

Bishop's 200 employees and 320,000 sq. ft. of production space allow us to handle any size project with ease. Our skilled staff can take your prototype from design to installation in just weeks, while our automated processes and domestic & international resources bring significant cost savings and flexibility to your rollout. Quite simply, our resources and 3 decades of experience allow us to meet your challenges of smaller budgets and shorter turnarounds with lower prices and more responsive service.

Since 1977, Bishop Fixture & Millwork has been manufacturing custom millwork, display fixtures and complete store environments. We specialize in all major materials, and offer a full range of services from prototyping to installation and support. Bishop adds value to its services by creating project teams organized around its customers' needs. These teams consist of experienced craftsmen and managers whose sole job is to ensure ***your fixtures*** are manufactured to ***your standards***. What does this mean to your project?

- **Flexibility** that allows for our teams to make a personal commitment to your satisfaction.
- **Hands-on Management** and attention to detail that ensure quality and timeliness.
- **Communication and Trustworthiness** that keep you in the know and your project within reach.

- Display Tables

Store in-a-Box Services

Bishop Fixture & Millwork provides 'Store-in-a-Box' services for many of its clients. Beginning with an analysis of your needs, we will handle everything from the design and development to the installation of your store environment. Our project management staff is accustomed to working with both store owners and designers in translating their ideas into functional, durable, branded store displays and environments.

Wood, Metal, Glass, Acrylic, Laminates or Solid Surface

Bishop specializes in spotlighting the quality of your fixtures whether they are wood, metal, acrylic, glass, laminate, solid surface or any combination. No matter what your material or construction needs are, our engineers will work with you to ensure a one-of-a-kind product. All Bishop-approved designs are supported by a minimum 1 year warranty.

Superior Finishing

Lacquer finishes, water based paints, and wood & metal powder coating offers your fixtures a wide range of finish options to meet your branding needs. Bishop's finishing equipment includes a powder coating booth, 5 paint booths, and an automated spray line to support large rollouts with shorter turnarounds. Meanwhile, take comfort in our environmental control systems and low-voc finish alternatives for more eco-friendly fixtures.

Lean Manufacturing Green Services

WI DNR Tier 1 Certified
Focus on Energy Program
Fixture & Kiosk Refurbishment

Bishop recycles over 90 percent
of its material byproducts

How Big Is Your Footprint?

The term Ecological Footprint refers to a metric used to calculate the pressure an entity places on the planet. As a company, Bishop Fixture & Millwork has taken an aggressive approach toward reducing the strain it imposes on the environment. We currently recycle over 90 percent of the materials that come into our facility, and engage in the Wisconsin DNR Tier 1 program, Wisconsin's Focus on Energy Program and offers fixture & kiosk refurbishment and relocation services.

More Responsible Products for Less.

Green services, such as eco-friendly display design and value engineering will align your store fixtures with LEED Points while improving performance. Furthermore, benefit from Bishop's green materials and finishes to improve store air quality and product durability. Call 1-800-841-1284 for a free consultation.
